

# Thanksgiving

name: \_\_\_\_\_

A long, long time ago the Pilgrims sailed from England to America. It was a long way - many days and nights.

The Pilgrims came to America.

It was very cold and they were very hungry.

At this time the Indians lived already in America. The Indians helped the Pilgrims.

The Indians showed them how to grow corn, how to hunt turkeys and how to catch fish.

Then the Pilgrims shared the turkey, the corn and the fish with the Indians. They all said thank you for the food.
